RECENT WORK EXPERIENCE

AI Platform Architect / Lead ML Systems Engineer

Infosis

Full-time

Aug 2025 – Present **Argentina**

- **Led the design and implementation of an MCP Server (Model Context Protocol)** , orchestrating LLM-based services, RAG pipelines, and vector search (Qdrant) with scalability and high availability.
- **Delivered AI service interfaces and APIs** , including a Discord-based assistant and production-grade REST/GraphQL endpoints (Go, Python).
- **Defined and operated AI platform infrastructure on Kubernetes** , applying IaC (Terraform, Terragrunt) with full observability and cost control on AWS.

Lead Software Architect

Infosis

Full-time

Nov 2022 – Aug 2025 **Argentina**

- **Designed and led end-to-end ML systems** spanning computer vision, NLP, and LLM-based solutions with measurable business impact.
- **Architected scalable full-stack platforms** combining GraphQL APIs, mobile clients, and cloud-native backends.
- **Provided technical leadership and architectural guidance** to cross-functional teams, directly contributing to revenue growth.

Machine Learning Engineer

Maker Development

Part-time

Nov 2023 – May 2024 **Peru**

- **Implemented production ML models** for object recognition, facial recognition, NLP, and generative media use cases.
- **Collaborated on applied AI solutions** focused on real-world deployment, performance, and user experience.

Senior SRE / DevOps Engineer

Multiple Companies

Full-time / Consulting

2017 – 2022 **LATAM**

- **Designed and operated cloud-native platforms** using Kubernetes, Terraform, and AWS at scale.
- **Built observability, CI/CD, and automation foundations** enabling reliable production systems.
- **Optimized infrastructure cost and performance** across multiple high-traffic environments.

LIFE PHILOSOPHY

"Great systems are not built by assigning tasks, but by aligning people around a clear vision and shared responsibility."

SOFT SKILLS

- Outcome-Driven Delivery
- Technical Leadership
- Architectural Decision-Making
- Clear Technical Communication
- Ownership & Accountability
- Systems Thinking
- Cross-Team Collaboration

SKILLS

AI Platform & Emerging Tech

- MCP ●●●●●
- LLM Orchestration / RAG ●●●●●
- Vector Search (Qdrant) ●●●●○
- Cloud-based ML Pipelines ●●●●○

Cloud & Infrastructure

- Kubernetes / Cloud Native ●●●●●
- Infrastructure as Code ●●●●●
- Configuration Management ●●●●●
- AWS ●●●●○
- Automation / CI-CD ●●●●○
